Detroit Partnership

On April 30, 2006, *Detroit Partnership* was approved by The Board of Directors of The Institute for Black Family Development.

Since 1988, the Institute's networking relationships have touched over 800,000 people; provided training for 5,000 people; seen 50 million dollars in networking revenues and in-kind contributions; seen 8 million books published, and seen the launch of 35 churches, Christian organizations, and programs.

The Detroit Partnership is a place to prepare pastors, churches and faith-based organizations in the field of community philanthropy, an emerging field of sharing and giving in a neighborhood context.

The Detroit Partnership is committed to enhancing the capacity to work across denominational, racial, ethnic and geographic opportunities.

The Detroit Partnership is a networking mechanism that provides training, networking and resourcing to promote racial, denominational and geographical unity among churches and Christian organizations in Southeastern Michigan.

Detroit Partnership Beyond

The Detroit Partnership is developing independent networking relationships with Gospel Fest, a spring evangelistic outreach held in Winston-Salem, North Carolina; and Detroit Neighborhood Reformation, a Southeastern Michigan organization of 130 churches, faith-based organizations and agencies.
